RALCO ULTRA SEWING

INDUSTRIAL LUBRICANT & ADDITIVE (Premium Quality Semi-Synthetic Lubricant)

RALCO ULTRA SEWING

Sewing Machine oil For all types of sewing Operations

Ralco Ultra Sewing Machine Oil is manufactured from premium quality paraffinic base oils. It is primarily designed for use in sewing machines, and are also suitable for textile machines that spin, weave, knit, sew, cut, shape, etc. and that operate at high speeds, with close tolerances. It has a low volatility, excellent high-temperature oxidation stability, and excellent viscosity/temperature characteristics.

Benefits:

- Thermal and Oxidation Stability
- Maximum Anti-wear properties
- Antifoaming properties
- Redues friction and rust Protection
- Water Separation
- Self-Cleaning, desludging properties
- Low Evaporation Loss

Typical Properties

TECHNICAL DATA	UNITS	VALUE	VALUE	VALUE
Viscosity 40° C	mm2/s	15	22	32
Viscosity		105	105	105
ASTM Color		clear, water light	clear, water light	clear, water light
Density 40° C	kg/m2	840	850	860
Flash point	°C	180	200	220
Pour point,	°C	-19	-15	-12
Wear resistance,SRV test		passed	passed	passed
